## Economic Development

- ⇒ **World Bank urges reforms to boost Philippine growth.** World Bank said the Philippines' goal of becoming Southeast Asia's next growth engine depends on stronger private sector investment, innovation, and productivity. The lender warned that rising oil prices from the Iran conflict and weak domestic investment are weighing on economic growth and inflation. It also highlighted challenges such as infrastructure gaps, slow business registration, port congestion, and policy uncertainty that continue to discourage investors. Despite these hurdles, the World Bank said the country still has opportunities to attract more foreign investment and move up the artificial intelligence value chain through faster reforms, improved trade integration, and higher value-added industries. (Business World)
- ⇒ **Philippine banks post higher first quarter profits.** BSP data showed Philippine banks' combined net income rose 2.9% to ₱104.82 billion in the first quarter, supported by stronger lending income and expanding assets. Total operating income climbed 10% as higher loan volumes and elevated lending rates boosted net interest income. However, banks also set aside larger provisions for potential loan losses, while loan write offs sharply increased, reflecting growing asset quality risks. Despite these pressures, the banking sector's total assets expanded nearly 10% to ₱30.34 trillion as of end March. (Philstar)

## Corporate Developments

- ⇒ **San Miguel Corporation (SMC).** SMC reported a 19% increase in first quarter 2026 consolidated revenues to ₱428.3 billion, driven by strong performance across its core businesses, primarily stemming from Fuel and Oil volumes as prices surged across the globe. Moreover, operating income climbed 31% to ₱59.6 billion, supported by higher margins in the power segment, particularly from battery energy storage facilities. However, net income plunged by 48% to ₱22.5 billion from ₱43.4 billion a year earlier due to the absence of a one time gain from power asset sales and forex losses. Its food and beverage unit remained steady, growing by 2% as SMC Foods business improved by 7%, thanks to feeds and branded products. Meanwhile, despite a 12% increase in Dubai crude prices, it failed to lift SMC's Fuel and Oil net income, declining instead by 56% as refinery output fell 7% to 25.7 million barrels for both Philippines and Malaysia. On the other hand, SMC Global Power posted a 26% increase in revenue to ₱53.6 billion on contributions from 5 BESS facilities but saw earnings fall. Lastly, SMC's infrastructure and cement units recorded higher revenues on increased traffic volumes and stronger demand. (SMC Company Disclosure)
- ⇒ **ABS-CBN Corporation (ABS).** ABS reported a 13% decline in first quarter 2026 content production and distribution revenues to ₱2.76 billion, weighed down by lower advertising spending, weaker consumer sentiment, and the absence of major films and events during the period. Last year's results were boosted by election ads, BINI's sold out Philippine Arena concert, and a strong movie release. Consolidated revenues fell 21% to ₱3.33 billion, while the company posted a net loss of ₱813 million. ABS-CBN expects revenues to improve later this year with new film releases, BINI's world tour, and Coco Martin's return to prime time television. (ABS Company Disclosure)

## Other Developments

- ⇒ **Trump pauses planned Iran attack for talks.** Donald Trump said he had paused a planned military strike on Iran to allow negotiations on ending the US-Israeli conflict after Tehran sent a new peace proposal through Pakistan. Trump warned the US military remains prepared for a large scale assault if talks fail. Iran meanwhile maintained a defiant stance, warning against further attacks while signaling willingness to continue negotiations on reopening the Strait of Hormuz and easing sanctions. (Reuters)
  
- ⇒ **US homebuilder sentiment improves despite housing pressures.** US homebuilder sentiment unexpectedly improved in May, though confidence remained weak as rising mortgage rates and inflation concerns tied to the Iran conflict continued to weigh on housing demand. The National Association of Home Builders/Wells Fargo Housing Market Index rose to 37 from 34 in April, beating forecasts. Builders said higher borrowing costs, elevated fuel prices, and economic uncertainty were limiting affordability and buyer activity. While some firms reduced prices and increased incentives to attract buyers, the US housing market remained subdued overall, with existing home sales still near crisis-era levels. (Reuters)
